

AcmeCorp Remote Work & Telecommuting Guidelines

1. Domestic Remote Work

- Employees may work remotely from anywhere within their home country for up to 4 weeks (20 business days) per calendar year without altering their official tax jurisdiction.
- **Core Hours:** Regardless of the time zone they are working from, all employees must be online and available for meetings during AcmeCorp's core collaboration hours: 10:00 AM to 3:00 PM Eastern Standard Time (EST).

2. International Remote Work

- International remote work is strictly capped at a maximum of 2 weeks (10 business days) per year.
- **Approval:** Any international remote work requires formal approval from both the direct manager and HR at least 30 days prior to departure.
- **Restrictions:** Employees are strictly prohibited from working remotely in any country where AcmeCorp does not have a registered legal entity due to data security and tax compliance laws.

3. Home Office Stipend

- New employees receive a one-time \$500 stipend to equip their home office. This cannot be used for purchasing company laptops or mobile devices, which are provided separately by the IT department.
